

200+ Measurable ACADEMIC IEP Goals & Objectives (Special Education SMART Goal Series Book 1)

This publication consists of a collection of more than 200 SMART Goals that can be used in Home Schooling settings, General Education settings, or Special Education settings to address learning needs in the following areas of development: General Academics; (Functional) Mathematics; (Functional) Literacy. All of these SMART Goals have been approved and have been used in actual teaching situations in general and special education. These SMART Goals can be used as is, but better is it to revise the selected SMART Goals to accurately fit with the Current level of Performance of the student. Most of the SMART Goals are written using the formula below. In some cases, a slightly different format was used. Time - Student - Support - Skill - Accuracy and Measurement, Documentation. (Example) By June 2013, Student X will independently be able to choose a SMART Goal from this database 100% of time, as documented in the trial logs. This collection of SMART Goals will help educators and home schools jump start the creation of an Individual Education Plan or a Personal Program Plan.
