

Language Management in Contact Situations: Perspectives from Three Continents (Prague Papers on Language, Society and Interaction / Prager Arbeiten zur Sprache, Gesellschaft und Interaktion)

The authors of this volume analyze language contact situations emerging in East and Central Europe, Australia, and Japan. The individual chapters focus on language problems which appear in concrete interactions between speakers of various languages. The objective of the book is to demonstrate the capacity of the language management framework on the basis of highly diversified empirical material and thus aid in the solving of similar language problems which arise in different types of intercultural contact. The chapters contribute to the forming of a new approach to the processes underlying linguistic diversity, covering both its micro and macro aspects.
