

The Great North-West and the Great Lake Region of North America (Classic Reprint)

Excerpt from The Great North-West and the Great Lake Region of North America I gather from what some of my critics have said - and I am much beholden to them for several valuable hints which I have tried to act on - that they would like a freer and more connected use of dates. I regret that there are circumstances, such as the irregular manner in which I sometimes made my notes, the intervals of trading journeys, causing a break in the time, &c., which make it impossible for me to present a narrative in journal form. The first half of the book, however, giving my first experiences in America, when i was a mere boy, is tolerably connected. Finally, let me say, that all my books are retrospective in point of time - a fault that I regret, but one which it is now to late to remedy. To a great extent I describe a beautiful past; for the face of the great American Continent is everywhere changing fast in appearance - too fast to please those who adore Nature in her virgin mantle.
