

# Education in the Digital Revolution: Theories and Issues on the Impact of Technology and Electronic Media

Readable and highly condensed, here is a tough in-depth look at the origins and power of science and technology within the framework of the effects of computers and other electronic media on education, culture, and the brain development in children. Includes juxtaposed synopses of key writings by leading thinkers such as Toffler, McLuhan, Chomsky, Lanham, Birkerts, Noble, Ong, Papert, Piaget, Vygotsky, Kurzweil, Barbour, and others. Provides conclusive thought-provoking challenges for the new directions needed in education.
