

# The Alphabet Book: For Beginning Readers (Moms and Dads Can Teach Too! Book 1)

Moms and Dads Can Teach Too! As a former Kindergarten teacher, I have had first hand experience at developing young readers. In this series, I have provided a collection of books that will assist parents in teaching beginning readers how to recognize and read high frequency words. This is a great book for beginning readers; it focuses on teaching children to read using repetitive sentence patterns. Words included in this book are: (I, see, a, an). Pattern books help beginning readers build their capacity to recognize high frequency words automatically when reading. High frequency words are words that appear often in books, newspapers and in our daily writing. If you are ready to be an active participant in your child's educational experience, purchase books in this series to begin the journey.

Enjoy the Journey~T.

Stuckey Special Note: This book should be viewed in landscape mode.
