

The Maya Chronicles, Vol. 1 (Classic Reprint)

Excerpt from The Maya Chronicles, Vol. 1
The belief that the only solid foundation for the accurate study of American ethnology and linguistics must be in the productions of the native mind in their original form has led me to the venturesome undertaking of which this is the first issue. The object of the proposed series of publications is to preserve permanently a number of rude specimens of literature composed by the members of various American tribes, and exhibiting their habits of thought, modes of expressions, intellectual range and aesthetic faculties. Whether the literary and historical value of these monuments is little or great, they merit the careful attention of all who would weigh and measure the aboriginal mind, and estimate its capacities correctly. The neglect of this field of study is largely owing to a deficiency of material for its pursuit. Genuine specimens of native literature are rare, and almost or quite inaccessible. About the Publisher
