

Japan Guide...less: Emails from Japan

Back in 2004, I embarked on a journey to Japan to teach English as a Second Language; a job I had never done before. I was totally qualified though because I spoke English. I had wanted to travel more, but not being able to afford it, I had the brilliant idea to move abroad. Kill two birds with one stone - travel and get paid to do it. I knew little about the food, less about the culture, none of the language, and was hired for a job I had never done before. Eh, details. Follow me as I fumble through the country, living and working, and discovering about the food, culture, and language I once knew nearly nothing about. Ill give you all the juicy stuff traditional guide books leave out, like what pastries to steer clear of and how to keep your cool while trying to flush a Japanese toilet. However, if you just enjoy a good laugh at someone elses expense, thats fine too.
