

## Perez and Martina: A Portorican Folk Tale

Perez and Martina is an old Porto Rican folk-tale which has been handed down by work of mouth for generations and now appears for the first time in English. The story has been long familiar to Spanish speaking children, but has never been more delightfully told than in this version by Pura Belpre who gives it exactly as it was told her by her grandmother. The artist, Carlos Sanchez, has entered fully into the spirit of this quaint old tale and his colorful pictures add interest and character to a unique story. Perez and Martina will be greatly enjoyed by young children, and is also particularly suitable for story-telling and dramatization.
