

My Sudan Year (Classic Reprint)

Excerpt from My Sudan Year
The object of this book is a very simple one. It delivers no new and startling facts or theories about the Sudan; it may possibly contain erroneous statements or judgments. It is but an attempt to convey to the tourist or fireside traveller something of the interest and charm of the Sudan in an unambitious form. Statistics and Blue Books mean little to most people; but an account of the passing incidents, trifles, and characteristics which have arrested the attention of an idle traveller may form for them a picture of the country which an enumeration of facts would merely blur. Perhaps the mothers and sisters of Englishmen whose work lies out in the Sudan may find in this book a setting for their thoughts, a coloured background for their imaginings of the lives and doings of those in whom they are interested.
