

# Crossing Boundaries: An Analysis of Roman Coins in Danish Contexts - Vol. 1: Finds from Sealand, Funen and Jutland (Publications of the National Museum Studies in Archaeology & History)

Roman coins, found within the area of modern Denmark, form the empirical basis of this archaeological study. The provenance and context of the individual coin are investigated, with the book examining the how, when, and why Roman coins were imported into Danish Iron Age cultures. The book also compares the evidence from Denmark with artifacts from other parts of Barbaricum.
