

Indian Life in Town and Country (Classic Reprint)

Excerpt from Indian Life in Town and Country It is a habit of current speech to refer to India much as one does to France, Spain, or Germany, conscious only that it is a far more extensive country. In the map of the world, it is depicted as an all-red possession, which tends to the suggestion of a homogeneous land. But it is, in fact, a conglomeration of distinct kingdoms and peoples, differing as widely in conditions and characteristics as Russia and Portugal, or the Norwegian and the Turk. The term Indian should convey to the mind the same cosmopolitan suggestion as the expression European. Under this really generic designation are grouped numerous races as distinct and individual as the Frenchman and the German, the Dutchman and the Greek.
