

Agricultural Machinery Application Technology (Chinese Edition)

The book is divided into seven units and describes the scarification equipment, sowing and planting machinery, plant protection machinery, irrigation machinery, grain harvesting machinery, grain cleaning and drying machinery and facilities, and types of agricultural machinery, structure, work process and adjustment, usage, maintenance, common failure analysis and troubleshooting and other aspects. The book focuses on the introduction to the machinery widely used in agricultural production, and highlights the usage of machinery, adjustment, maintenance and common failure analysis and troubleshooting, so that students can not only know about the structure and operating principle of the commonly used agricultural machinery, but also can operate and maintain the agricultural machinery and analyze and deal with common failures.
