

# Creating the Early Literacy Classroom: Activities for Using Technology to Empower Elementary Students

Now you can implement the ideas and research findings of Jean Casey's Early Literacy to help students become successful readers and writers. These flexible, engaging activities can be used across the grade levels. They will motivate students and empower them to design their own projects, create their own written products, and above all, be in control of their learning. A must for every educator, this book is especially useful to those involved in English as a Second Language, Special Education, and Gifted programs.
