

Classroom Discussions: Using Math Talk to Help Students Learn, Grades 1-6

This exciting resource provides a unique look into the significant role of classroom discussions in mathematics teaching in grades 1 through 6. Five discussion strategies are introduced to help teachers strengthen students thinking and learning and help them build connections among mathematical ideas. A valuable outline is provided to help teachers get started using talk in the classroom, plan lessons, and deal with challenges. Two case studies are also included for further insight into how teachers can use talk effectively.
