

Perspectives on Privacy: Increasing Regulation in the USA, Canada, Australia and European Countries (Media Convergence / Medienkonvergenz)

Due to rapid developments in the communication sector, the right to privacy faces new challenges. The increasing digitization and internationalization of communication processes have raised a number of issues, and lead to conflicts wherever national legal systems and moral concepts collide. This title contributes to the international dialogue and offers a starting point for a sustainable policy for the protection of privacy rights.
