

IATEFL BESIG 2012 Stuttgart Conference Selections (IATEFL BESIG Conference Selections)

A bouncing, healthy baby of an ebook, weighing in at almost 60,000 words, with over fifty summaries, seven conference and satellite reviews, four editorials and a glossary. IATEFL BESIG 2012 Stuttgart Conference Selections is a collection of articles based on presentations given by international Business English educators at the annual conference organized by the Business English Special Interest Group of IATEFL. Comprising fourteen chapters ranging from Culture and Communication to Learning Technologies, the publication includes contributions from established Business English practitioners as well as newcomers to the field. Arguably of interest to all those involved in delivering language training to adults, the articles address a broad cross-section of topics and issues as diverse as working with authentic listening materials, politeness in intercultural encounters, digital literacies, and assessing and reporting training quality. As such, the ebook represents the largest and most comprehensive compilation of its kind. It is also the first in a series of publications that aims to distill the essence of the annual BESIG conferences into a highly accessible and readable format.
