

Uncertain Futures: Communication and Culture in Childhood Cancer Treatment (Wiley Blackwell Studies in Discourse and Culture)

This book examines children and young peoples attempts to participate in conversations about their own treatment throughout uncertain cancer trajectories, including the events leading up to diagnosis, treatment, remission, relapse, and cure or death. Clearly and compellingly written, Clementerelieson a new multi-layered method to identify six cancer communication strategies Illustrates that communication is central to how children, parents, and healthcare professionals constitute, influence, and make sense of the social worlds they inhabitor that they want to inhabit Provides ethnographic case studies of childhood cancer patients in Spain, using childrens own words Examines the challenges of how to talk to and how to encouragepatientsinvolvement intreatment discussions In his critique of the telling versus not telling debates,Clemente argues that communication should be adjusted to the childrens own needs, and that childrens own questions can indicate how much or little they want to be involved
