

Survivalist Living: How We Escaped The Rat Race And Found True Freedom By Living Off The Grid - And How You Can, Too!

For the last few years, my family and I have been living the survivalist lifestyle. We do pretty much everything ourselves -- even generate our own power. This is not a temporary thing for us or a place to bug out when society collapses. No, this is pretty much a permanent thing. We have chosen to exit the rat race and never look back. ? It wasn't always this way, though. We used to live in the burbs and had the typical stressed out, two-car, big house, long-commute lifestyle. Maybe that's where you're at right now. Well, I'm here to tell you that there is a way out, and if we can do it starting from zero, then anybody can do it. Right now I'm going to reveal some of the secrets of our off grid survival lifestyle and hopefully they will help you take a big step toward your dream of being self sufficient.
