

## Ice Diaries: A Memoir

What do we stand to lose in a world without ice? A decade ago, novelist and short story writer Jean McNeil spent a year as writer in residence with the British Antarctic Survey and four months on the world's most enigmatic continent - Antarctica. Access to the Antarctic remains largely reserved for scientists, and it is the only piece of earth which is nobody's country. Ice Diaries is the story of McNeil's years spent in ice, not only in the Antarctic but her subsequent travels in Greenland, Iceland and Svalbard, culminating in a strange event in Cape Town, South Africa.
