

Etruscan Tomb Paintings Their Subjects and Significance (Classic Reprint)

Excerpt from Etruscan Tomb Paintings Their Subjects and Significance The following sketch is based upon investigations made in the Etruscan Tombs at Corneto and Chiusi, and on comparison of the original wall-paintings with the facsimiles and drawings made from them and preserved in the Helbig Museum in the Ny Carlsberg Glyptotek. It was originally published in Danish, in 1919, as a guide to students in that Department. I am greatly indebted to Mr. G. F. Hill, of the British Museum, for his revision of the translation. Meanwhile the first volume of the promised work of Fritz Weege (Etruskische Malerei, Halle, 1921) has appeared, copiously and splendidly illustrated. The text contains general views concerning Etruscan religion and society rather than descriptions of the paintings themselves, and I cannot refrain from saying that I find Weeges statements and opinions, and the parallels which he adduces, too often more fanciful than convincing, in spite of the vast erudition displayed therein. I do not find anything in my own text which I feel inclined to alter after reading his book. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
