

Hauling Ass: A Drive Across America

There is arguably no American road trip more American than the one on which you hunker down and haul ass. Australian journalist and travel writer Matthew Clayfield takes on the great American road trip in this engaging, funny and melancholic essay. Setting out from Chesapeake Bay and hitting San Francisco five days later, Clayfield writes with passion, knowledge and dry wit of the interstate highway system, the all-American homogeneity of the country's big roads, and the enduring but misleading lure of the West. Along the way he enlists the services of Mark Twain, Jack Kerouac, William S. Burroughs and other madroad driving men to support his arguments about the transcontinental highways, which not only made the country driveable, but in many respects made it possible. Praise for Matthew Clayfield's *The Caucasian Semi-Circle: A Journey Along Russia's Exposed Nerve*: I'm not sure if Matthew Clayfield was brave, foolish or both for travelling through Russia's North Caucasus region, but it's a good thing he did. His narrative though a region wracked by Islamist terrorism and state repression is deftly executed and gripping. Recommended. Michael J. Totten, author of *The Road to Fatima Gate* A symphony in which all the individual notes are given their proper weight. Penetrating analysis sits alongside concentrated bursts of colour and fabulous set pieces. A how-to-not-skimp guide to being anywhere. It comes with my highest recommendation. Joseph Woby, *The Times*

Matthew Clayfield's tour through the Caucasus is by turns illuminating, wry and disturbing. Inquisitive and sceptical, Clayfield questions the simplistic picture we see in the West and allows us to glimpse the messy truths behind the headlines. Alison Croggon, author of *Black Spring*
