

Introductions to the Study of the Greek Classic Poets: Designed Principally for the Use of Young Persons at School and College (Classic Reprint)

Excerpt from Introductions to the Study of the Greek Classic Poets: Designed Principally for the Use of Young Persons at School and College

In submitting this work to the public, I trust I may justify myself against any charge of individual presumption, by alleging the apparent usefulness of the undertaking, if well executed, and also that the matter itself is principally, though not exclusively, intended for young persons. It is possible, indeed, that a perusal of these introductions may not be unserviceable to many well educated readers of any age, and of either sex; but I do not directly address myself to graduates of any degree. By those who are still called boys, I hope the teaching of him, who has ceased to be one, will be as kindly received as it is affectionately given. My wish is to enable youthful student to form a more just and liberal judgement of the characters and merits of the Greek poets than he has commonly an opportunity of doing at school; and for that purpose to habituate his mind to sound principles of literary criticism.
