

## The Peter Pan Alphabet and An Alphabet of Celebrities (Special edition for Alphabet series)

The history of the alphabet starts in ancient Egypt. The first pure alphabets (properly, abjads, mapping single symbols to single phonemes, but not necessarily each phoneme to a symbol) emerged around 2000 BC in Ancient Egypt, as a representation of language developed by Semitic workers in Egypt, but by then alphabetic principles had already been inculcated into Egyptian hieroglyphs for a millennium. Most other alphabets in the world today either descended from this one discovery, or were directly inspired by its design, including the Phoenician alphabet and the Greek alphabet. This special edition is including 2 Alphabet books by Oliver Herford with the beautiful original drawing pictures. Each book has the linkage for each ABC alphabet for easy navigation.
