

## Days: A Tangier Diary

Between 1987 and 1989, Paul Bowles, at the suggestion of a friend, kept a journal to record the daily events of his life. What emerges is not only just a record of the meals, conversations, and health concerns of the author of *The Sheltering Sky* but also a fascinating look at an artist at work in a new medium. Characterized by a refreshing informality, clear-sightedness, and passages of exquisite prose, these pages record with equal fascination the behavior of an itinerant spider, a brutal episode of violence in a Tangier marketplace, and the pageantry and excess of Malcolm Forbess seventieth birthday party. In *Days*, a master observer of the foreign and obscure turns his attentions toward his own daily existence, giving us a startlingly candid portrait of his life in late twentieth-century Tangier.
