

10 Ideas in Pursuit of a Global Curriculum

Now over a decade into the 21st century, there is tremendous pressure for education to globalize. What this means exactly isn't universally agreed upon. In major world markets, the business world globalized decades ago, expanding beyond domestic markets in pursuit of more diverse audiences and stronger profits. And while major players in business continue to experiment and find their way in markets whose culture and buying practices diverge from those domestic, the field of education has been slow to follow suit. This book offers 10 ideas in pursuit of a global curriculum, and 30 strategies to begin implementing those ideas.
