

New Dawn

Modern Korean history is an important subject for future generations of Korean immigrants to learn their background and their ancestors struggles for independence and democracy. The search for simple English storytelling on the subject found no easy answer. The Author, having lived in both Korea and the U.S., presents an objective and panoramic view of history through the life of Syngman Rhee(1875-1965), the reformer and the first president of the Republic of Korea. The Author depicts international politics in the colonial period and follows the life of a young man destined to be an enlightened and courageous spiritual and political leader. He bridged the old Korean dynasty engulfed in colonization with a vibrant Republic, a bulwark of democracy in the Far East which was swept by communism. The book is essential reading for the new generation interested in the dazzling progress of the new republic, the war to thwart communism, and the peoples will for democracy and freedom.
