

# Revive the Past: Proceedings of the 39th Conference of Computer Applications and Quantitative Methods in Archaeology (Amsterdam University Press - Computer Applications and Quantitative Methods in A)

The present volume consists of the peer-reviewed papers presented at the CAA2011 conference held in Beijing, China between April 12 and 16, 2011. The theme of this conference was -Revive the Past , which means retrieving our history and using it to help create a new civilization. It was a great honour to organize the conference where over 130 researchers made presentations; ten keynote speeches were given; and sixteen sessions covered a wide variety of topics: data acquisition and recording, conceptual modelling, data analysis, data management, digging with words, 3D models, visualizing heritage sites, digital spaces for archaeology, geophysics, GIS, graphics in archaeology, visualisation in archaeology, semantic technologies, spatial prediction, visualization and exhibition, and 3D object reconstruction. In addition, student papers and posters were presented.
