

## Growing In The Garden

Growing In The Garden was written to inspire children of all ages to get outside, get dirty and grow something. Dad and daughters work side by side as they discover the importance of weeding, seed planting, watering and more. All three characters get dirty while learning about the growing cycle. Travel through spring planting, summer growing and fall harvesting all in one day as dad inspires the girls to spread the secret of Growing In The Garden. Growing In The Garden inspires young children to get dirty, grow food and have fun. ~ Lisa Marion Shortly after reading Growing In The Garden, the kids were outside planning out their garden space! ~ Michelle Gersin After we read Growing In The Garden, my students became experts at shooing bugs away from our classroom garden! ~ Kristine Yates I love all of the helpful garden tips given by dad and the girls! ~Marykay Gibson
