

Multiple Choice Questions in Library and Information Science: For NET/SET/SLET and Other Competitive Examinations

Based on library science research conducted in India, this book is designed for library professionals/students who must take various competitive examinations in the field of library and information science. It covers the basics of library science, as well as the evolving and emerging concepts which are necessary for students to clear their competitive exams. The book contains the solved NET question papers of last two years, and it includes ample guess questions and practice questions which will help the reader in practicing for an exam.
