

Glaciers (Exploring Geography Book 1)

A lavishly illustrated book with matching coursework tasks. Curriculum matched, proving the basis for lessons and homework on glaciers and glaciations with illustrative photos and diagrams. Ideal for ages 11 to 18, but provides a sound basis for higher levels of education and could also be used by teachers of younger students. This book includes locations of glaciers, physical features of glaciers and glaciated regions, problems of glacier recession. The coursework tasks are ideal for both classwork and homework and will build into a useful coursework portfolio. Written by experienced author, Gwyneth Windsor (Author of a number of books and CDROMs previously published by Heinemann and Nelson Thornes)
