

Wild Weeds and Windflowers: The life and letters of Katharine Susannah Prichard

Katharine Susannah Prichard was a writer of novels internationally acclaimed for their realism and power, a foundation member of the Australian Communist Party, a feminist. Her son, Ric Throssell, has drawn on the memories of a lifetime and a deep and intimate knowledge of his subject in this full and moving account of his mother's life. In this moving biography, Ric Throssell, who was himself an accomplished writer, brings to life the story of his mother Katharine Susannah Prichard, drawing on his close personal relationship and his memories of her lifetime. Katharine Susannah Prichard (1883-1969) was one of Australia's most distinguished writers of the first half of the twentieth century, as well as one of its most politically engaged. A foundation member of the Western Australian branch of the Communist Party, she was also a fervent feminist, and her writing was informed by a broad-reaching socialism. Prichard published many major novels, including *Working Bullocks* (1926), lauded on publication as the first properly Australian modern novel, and *Coonardoo* (1929), which attracted some hostile criticism for its portrait of a loving sexual relationship between a young Aboriginal woman and a white man. As a public figure Prichard won acclaim, but she also suffered public abuse. She was an intensely private woman who requested that all her personal papers and letters be destroyed upon her death. This is the authoritative and intimate account of her life.
