

## Coloring Geometric Images

This full colored book contains numerous instructions and illustrated examples of colored pencil techniques that are useful when coloring geometric images. It also includes instructions on how to draw three pictures for coloring. In addition, you will find blue outlines of captivating, three-dimensional geometric shapes for coloring. Included are an octahedron inside a cuboctahedron, a great stellated dodecahedron from two angles, three intersecting planes, a dodecahedron inside an icosahedron, an icosahedron inside a dodecahedron, a transparent rhombic dodecahedron and a small stellated dodecahedron from two angles. Each of these shapes is presented twice, with the first one already colored to help you visualize its form. Printed on 70 lb (105 g/m<sup>2</sup>) paper good for colored pencils.
