

Millennial Mythmaking: Essays on the Power of Science Fiction and Fantasy Literature, Films and Games

Contemporary myths, particularly science fiction and fantasy texts, can provide commentary on who we are as a culture, what we have created, and where we are going. These nine essays from a variety of disciplines expand upon the writings of Joseph Campbell and the heros journey. Modern examples of myths from various sources such as Planet of the Apes, Wicked, Pans Labyrinth, and Spirited Away; the Harry Potter series; and Second Life are analyzed as creative mythology and a representation of contemporary culture and emerging technology.
