

Notes of an East Coast Naturalist: A Series of Observations Made at Odd, Times During a Period of Twenty-Five Years, in the Neighbourhood of Great Yarmouth (Classic Reprint)

Excerpt from Notes of an East Coast Naturalist: A Series of Observations Made at Odd, Times During a Period of Twenty-Five Years, in the Neighbourhood of Great Yarmouth. SO many books dealing with Natural History subjects have of late years been written, that a preface has become as necessary as an apology for adding to the number as for briefly setting forth the subject-matter of a book. While claiming the forbearance of the Reader, I would like to state that the following Notes and Observations are taken from the many entries made in my Notebooks during a period of a quarter of a century, and relate to the Fauna of the neighbourhood of Great Yarmouth.
