

Reading for Detail, Grades 6-7

Extracting meaningful detail from written text is an essential skill as children advance through school and especially when they take tests. This book contains a wide range of original fiction and non-fiction entries, written in a variety of styles including narrative, recount, procedure, report, explanation and exposition. Following each passage, students encounter a series of questions that tap their depth of recall and ability to conceptualize information. Also in this series is Reading for Detail, Grades 4-5.
