

Researching Education Through Actor-Network Theory

Researching Education Through Actor-Network Theory offers a new take on educational research, demonstrating the ways in which actor-network theory can expand the understanding of educational change. An international collaboration exploring diverse manifestations of educational change. Illustrates the impact of actor-network theory on educational research. Positions education as a key area where actor-network theory can add value, as it has been shown to do in other social sciences. A valuable resource for anyone interested in the sociology and philosophy of education.
