

Attitude Measurement (SAGE Benchmarks in Social Research Methods) (v. 1)

Caroline Roberts and Roger Jowell, acknowledged specialists in this area of research, have combed the literature to bring together the most comprehensive collection available. The four volumes cover key advances since serious study of the subject began, where the selection of articles and papers present the key figures, major steps forward in theory or practice and some of the most creative and ingenious methodological work in the social sciences. This set will provide a rich reference source that should appeal to academics and practitioners alike.
