

Tessa B. Dick: My Life on the Edge of Reality

By the author of Philip K. Dick: Remembering Firebright, this personal memoir tells the life story of a survivor of abuse who also experienced strange and bizarre events that seem to coalesce around a secret government-sponsored experiment in mind control. The man told me that they were dropping me from the program because I was neither physically nor mentally fit for long-term space travel. I begged him to give me a chance, promising that I would work very hard, but he only looked sad while telling me that it was impossible. He added that I was remembering too much, and that I might tell the secrets to people who shouldn't know about the program. So now I'm telling the secrets. This second edition has an added Epilogue and cover art by Nick Buchanan.
