

## More Celtic Fairy Tales (Classic Reprint)

Preface the last time, for the present, I give the children of the British Isles a selection of Fairy Tales once or still existing among them. The story store of Great Britain and Ireland is, I hope, now adequately represented in the four volumes which have won me so many little friends, and of which this is the last. My collections have dealt with the two folk-lore regions of these Isles on different scales. The English region, including Lowland Scotland and running up to the Highland line, is, I fancy, as fully represented in English and More English Fairy Tales as it is ever likely to be. But the Celtic district, including the whole of Ireland and the Gaelic-speaking part of Scotland, still offers a rich harvest to the collector, and will not be exhausted for many a long day. (Typographical errors above are due to OCR software and do not occur in the book.) About the Publisher Forgotten Books is a publisher of historical writings, such as: Philosophy, Classics, Science, Religion, History, Folklore and Mythology.
