

The Origin of Civilisation and the Primitive Condition of Man: Mental and Social Condition of Savages (Classic Reprint)

Excerpt from The Origin of Civilisation and the Primitive Condition of Man: Mental and Social Condition of Savages
In my work on Prehistoric Times I have devoted several chapters to the description of modern savages, because the weapons and implements now used by the lower races of men throw much light on the signification and use of those discovered in ancient tumuli, or in the drift gravels; and because a knowledge of modern savages and their modes of life enables us more accurately to picture, and more vividly to conceive the manners and customs of our ancestors in bygone ages. In the present volume, which is founded on a course of lectures delivered at the Royal Institution in the spring of 1868, I propose more particularly to describe the social and mental condition of savages, their art, their systems of marriage and of relationship, their religions, language, moral character, and laws. Subsequently I shall hope to publish those portions of my lectures which have reference to their houses, dress, boats, arms, implements, &c. About the Publisher
Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at www.forgottenbooks.com
This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
