

Cracking Open the Authors Craft: Teaching the Art of Writing (Theory and Practice in Action)

By observing the deep study of one book, teachers will learn how to explore any text with a greater appreciation for and understanding of authors craft, which they can use to support students development as writers. Fifteen ready-to-use mini-lessons introduce students to techniques and literary elements they can use to craft their own writing. On an accompanying DVD, the author explains how writers work with both audible and visual craft. The DVD also includes downloadable forms and guidelines teachers can use with their students to explore writers craft. For use with Grades K5.
