

Foreign Language Units for All Proficiency Levels (Nets*s Curriculum)

Language students learn best when given the opportunity to communicate meaningful content in realistic settings. Providing those realistic contexts hasn't always been easy, but as this book emphatically demonstrates technology can help. Current Internet- and software-based technologies offer authentic, individualized interactions with members of the target language community - precisely the kind of interaction that leads to the biggest gains in proficiency. Months worth of lesson plans and activities show you how to use the best of these technology tools to build content-based curricula for all ages and languages, and simultaneously address critical technology and content area standards.

FEATURES Dozens of lesson plans on CD-ROM that can be used as stand-alone activities or month-long curriculum plans. Introductory essays on technology integration and foreign language standards, performance assessment, and distance learning. Interdisciplinary links, teaching tips, lesson extenders, and assessment rubrics for each unit.

Topics include: foreign language instruction-technology integration-standards implementation-lesson plans-curriculum design-Spanish-French-Japanese

Also available: *Teachers as Technology Leaders: A Guide to ISTE Technology Facilitation and Technology Leadership Accreditation* - ISBN 1564842266

Transforming Classroom Practice: Professional Development Strategies in Educational Technology - ISBN 1564842460

The International Society for Technology in Education (ISTE) is the trusted source for professional development, knowledge generation, advocacy and leadership for innovation. ISTE is the premier membership association for educators and education leaders engaged in improving teaching and learning by advancing the effective use of

technology in PK-12 and teacher education. Home of the National Educational Technology Standards (NETS), the Center for Applied Research in Educational Technology (CARET), and ISTE's annual conference (formerly known as the National Educational Computing Conference, or NECC), ISTE represents more than 100,000 professionals worldwide. We support our members with information, networking opportunities, and guidance as they face the challenge of transforming education. Some of the areas in which we publish are: -Web. 2.0 in the classroom-RSS, podcasts, and more -National Educational Technology Standards (NETS) -Professional development for educators and administrators -Integrating technology into the classroom and curriculum -Safe practices for the Internet and technology -Educational technology for parents
