

A Memoir of Jane Austen (Illustrated) with many family portraits

This memoir was published by her nephew and contains many family letters. Biographical information concerning Jane Austen is famously scarce, according to one biographer.[7] Only some personal and family letters remain (by one estimate only 160 out of Austen's 3,000 letters are extant), and her sister Cassandra (to whom most of the letters were originally addressed) burned the greater part of the ones she kept and censored those she did not destroy. Other letters were destroyed by the heirs of Admiral Francis Austen, Jane's brother. Most of the biographical material produced for fifty years after Austen's death was written by her relatives and reflects the family's biases in favour of good quiet Aunt Jane. Scholars have unearthed little information since.
