

TIME For Kids: Practicing for Today's Tests Mathematics Level 2

There is no better way to prepare second grade students for next generation tests than to take practice tests! These practice sets are the perfect preparation tool for Smarter Balanced Assessment Consortium (SBAC), Partnership for Assessment of Readiness for College and Careers (PARCC), State of Texas Assessment of Academic Readiness (STAAR), and other state testing. The higher-level questions, multi-step mathematics problems, and higher-order thinking skills on these tests will help get students ready for the performance-based assessments they will be facing. They will give students the experience to complete the real state tests with confidence and the skills and ability to achieve maximum results. Teachers will be able to identify gaps in knowledge and target instruction accordingly.
