

Teaching, the Hardest Job Youll Ever Love: Helpful Ideas for Teachers In and Out of the Classroom

Teaching Is The Hardest Job You Will Ever Love! is a realistic guide that can help the high school teacher and community. It includes ways to maintain ones health, how to balance ones personal and school life, and how to interact in a better, successful manner. In order to become successful, it is important for high school teachers to include personal fulfillment so that students will ultimately learn not only the subject matter but also how to be self-sufficient, be self-accountable, and learn with others. While students need to learn how to accept their learning and their grades, parents or guardians also need to be able to be a support system for their young adults with encouragement when needed and with praise when earned.
