

Getting the Best Education for Your Child: A Parents Checklist

YOU ARE YOUR CHILDS BEST ADVOCATE You pay your taxes. Youre active in the PTA. You may even have moved to your community because its school system had a great reputation. But is your child really getting the education he or she needs as an individual? Getting the Best Education for Your Child is an essential guide to working with your childs school from kindergarten through sixth grade. School board member and newspaper columnist James Keogh provides the insights and strategies all parents need to ensure success for their children. How much time is the teacher actually devoting to your child? How safe is the school environment? What grading standards are used? What provisions are made for children with special needs? What about such alternatives as private school and home schooling? And most important, what is your child supposed to know by the end of the school year? Dont be intimidated by a bureaucratic, defensive school system. You can make a difference in what your child gets out of school.
