

Quick Connections (Connections Series) (Volume 1)

Using the most current techniques of teaching English to speakers of other languages, Quick Connections (a curriculum for English camps or short-term classes) employs the basic concepts of Gardner's Theory of Multiple Intelligences and Penny Hiller's Story Approach, a whole language approach to language learning. We are indebted to their practical application of language learning and hope you, as a tutor, will see significant productivity with your students' English skills.
