

# Preschool and Kindergarten Alphabet Handwriting Practice

This book provides an extensive focus on English Alphabet printed letter formation. It isn't muddled with activities but instead focuses solely on print letter formation. The full page format focusing on one capital letter and its lowercase counterpart allows for additional practice with letters the student may have trouble writing. To ensure competency, each capital and lowercase letter is presented at least 30 times followed by a free writing practice page. Once the student has adequately mastered a letter or group of letters, they can move on to the next letter or skip around as comfortable.
