

## Approaches to Needs Assessment in Childrens Services

Examining the assessment of need in childrens services this book addresses the full spectrum of practice, policy and research developments in the field. The contributors include leading academics, policy makers and senior practitioners who generate a broad-based holistic approach to the assessment of children in need. They show how needs assessment in childrens services can be used to tackle problems such as low achievement, mental ill-health and social exclusion at both individual and strategic levels. Approaches to the Assessment of Need in Childrens Services will enable service managers and practitioners to respond effectively to the increasing pressure to monitor outcomes and effectiveness in child care work, and to improve and coordinate childrens welfare service provision at individual and community levels and provides an indispensable overview and analysis for anyone working or studying in child welfare and social care.
