

## Silence of the God

In this aggressive, fighting Societycirculate the documents that will both arouse us to the need of action and also show us the necessity of fighting this war through until it is crowned by a peace of overwhelming triumph for the right. For that purpose it is necessary to instruct our people, to show them that this war which is going on, on the other side does not rank with the movies they go to see. It is necessary to show them what German domination has meant in Belgium and Northern France, the hideousness of what has been done to Serbia, to Romania, what it will mean for mankind to see the resources of civilization ingeniously turned to destruction instead of construction. That is what we have seen in Germany. Silence of the God, gives in authentic form, and supported by evidence, most of which would be accepted in a court of law, just what Germany has done, and what at this moment would be doing to us if we did not have the fleets and armies of Great Britain and France to protect us.
